Neighborhood Description	The Bridger Canyon rural residential corridor northeast of Bozeman has experienced exceptional demand growth driven by remote-work migration and Montana's outdoor lifestyle appeal. Properties in this area sit at elevations of 4,800–5,600 feet with panoramic views of the Bridger Range. The area has seen rapid appreciation of 8–12% annually from 2022–2024. Acreage properties with mountain views are particularly sought after. Inventory remains critically low, driving competitive bidding. The rural character, large lot sizes, and proximity to Bridger Bowl Ski Area and Gallatin National Forest are key value drivers.
